OUR PROGRAM

Launch provides young adults with a space and community to grow through a structured and systematic program with measurable outcomes and tangible results. Clients will be immersed in an integrated system of personalized therapeutic support and educational guidance to achieve mental, emotional, and academic goals aligned with a healthy and successful life.

Clients will set goals based on personalized intake data and will work within chosen time increments to achieve results. Launch assists young adults in building upon their passions in life by identifying individual purpose, monitoring personal well-being, utilizing time wisely, and transitioning into being a productive individual within a chosen field of study and/or career.

OBJECTIVES & GOALS

Our counseling team consists of highly skilled professionals who use effective techniques and current modalities. Each young adult is assigned a personal counselor who works directly with them through the duration of the program. Additionally, every young adult will be given support and guidance from our program director. We are here to help young adults find and pursue their passions in life. We will help them succeed in every way possible while they pursue that passion.

SUPPORT HIGHER EDUCATION

Whether it's a local college or a trade school, we want all of our clients to understand that the first step to getting their lives back is a solid education. We help our young adults through every step of the process, from writing applications and enrollment to earning college credits while in treatment.

PROVIDE JOB PLACEMENT

Launch has cultivated lasting relationships with many local businesses in an effort to offer paid internship opportunities to all of our clients. We'll help create résumés and cover letters while providing invaluable experience in a variety of local restaurants, and retail boutiques, and coffee shops.

DEVELOP LIFE SKILLS

There are many parts of adult life we simply don't learn in school: budgeting finances, time management and organization, creating schedules, and even fitness and nutrition. We give our clients the opportunity to enter adult life with confidence and experience.

ENHANCE FAMILY COMMUNICATION

Miscommunication is one of the most damaging elements in any family. At Launch, our clients will learn how to communicate their emotions and needs while understanding the necessity of compromise and listening effectively.

LAUNCH PHILOSOPHY

Launch is for young adults age 18+ who have experienced a "failure to launch" on their own. Whether struggling with mental health, sobriety, or simply a lack of direction, Launch is here to help. It is absolutely imperative that individuals use backgrounds, talents, skills, and passions in a productive manner to contribute to society and to become the best versions of themselves. We are what we do and Launch believes in the power of nurturing new behaviors specialized to individuals' needs, talents, and goals. We offer..
